

Loneliness

Loneliness like a cloud over me and it rains
and I feel sick and tired, can hardly breathe
suffocating
and it won't go, no
it'll stay, she said, until I come back
I'll be waiting

Please come back
please come back my darling
my darling I need you
I need you
without you
without you I am nothing
I'm nothing, at least nothing new
nothing new

And pain in my heart and it bleeds
and tears in my eyes and on my cheeks
so degrading
and it won't go, no
it'll stay, she said, until I come back
I'm still waiting
She's not coming
and I start hating her

Don't come back
don't come back my darling
I don't need you
don't need you
without you
without you I am nothing
I'm nothing, at least nothing new
nothing new

Oh please come back my darling
my darling I do need you
I need you
without you
without you I am nothing
nothing, nothing new
nothing new

So come back
